## 1. NYLON CORD for Taval tying machine

Thanks to its composition and special manufacturing process, we produce a very soft cord but at the same time extremely resistant.

The combination of strength and elasticity makes this product an ideal cord for tying sausages by hand as well by tying machines.

### DATA

**Description:**

Nylon cord

**Color:**

White, White + Color, Color

**Nº of threads:**

from 4/t to 10/t

**Material:**

50% Polyester and 50% Polyamide

**Format:**

2 kg and 5 kg reel or cut to length

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 2. POLYESTER CORD

As the cord is composed of 100% Polyester our product has a great appearance as well as great resistance.

It is an ideal cord for tying machines that require a great resistance in their ties.

### DATA

<b>Description:</b>	<b>Polyester cord</b>
<b>Color:</b>	<b>White, White + Color, Color</b>
<b>Nº of threads:</b>	<b>from 4/t to 10/t</b>
<b>Material:</b>	<b>100% Polyester</b>
<b>Format:</b>	<b>2 kg and 5 kg reel or cut to length</b>

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

### 3. POLYESTER CORD LOOPS

Loops are especially designed to work with clipping and stapling machines.

This is a great alternative to conventional polypropylene loops.

Designed to give the product a much more artisanal and natural presence.

**DATA**

<b>Description:</b>	<b>Polyester cord</b>
<b>Color:</b>	<b>White, White + Color, Color</b>
<b>Nº of threads:</b>	<b>6/t</b>
<b>Material:</b>	<b>100% Polyester</b>
<b>Loops dimension:</b>	<b>from 10 cm to 16 cm</b>
<b>Format:</b>	<b>50 units packs in a package of 500 units</b>

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 4. COTTON CORD (S.T.)

The cotton cord ST is the most economical in our range of products.

It can be used to attach sausages by hand or for clipping or stapling machines.

### DATA

**Description:**

**Color:**

**Material:**

**Format:**

**Cotton cord (S.T.)**

**White, White + Color, Color**

**Cotton**

**1 kg and 2 kg reel or cut to length**

### Nº OF THREADS

ST N-0: 5 threads

ST N-1: 7 threads

ST N-2: 11 threads

ST N-3: 15 threads

ST N-4: 20 threads

ST N-5: 25 threads

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 5. COTTON CORD (10/7)

Through our polishing and waxing treatment we produce a cord with a great appearance while maintaining its technical characteristics necessary for the sausages tying machines.

**DATA**

<b>Description:</b>	<b>Polished and waxed Cotton cord</b>
<b>Color:</b>	<b>White, White + Color, Color</b>
<b>Nº de threads:</b>	<b>7/t</b>
<b>Material:</b>	<b>Cotton</b>
<b>Format:</b>	<b>1,5 kg cone</b>

Nº RISPAC: 39-05011/CAT      Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 6. POLYPROPYLENE CORD (P.P.)

Safety cord.

**DATA**

<b>Description:</b>	Polypropylene cord (P.P.)
<b>Color:</b>	White, White + Color, Color
<b>Nº of threads:</b>	2/t, 3/t o 4/t
<b>Material:</b>	100% Polypropylene
<b>Format:</b>	Industrial real (5 kg aprox.)
<b>Features:</b>	Polypropylene 2.200 dtex Polypropylene 5.500 dtex Polypropylene 6.600 dtex

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 7. POLYESTER C-10

For continuous thread tying machines.

With this string you will get the maximum performance in your productions. Designed to reduce pauses in production because of its high performance of 5000 meters / kg.

### DATA

<b>Description:</b>	<b>Polyester C-10 yarn</b>
<b>Color:</b>	<b>White, White + Color, Color</b>
<b>Nº of threads:</b>	<b>3/t</b>
<b>Material:</b>	<b>100% Polyester</b>
<b>Format:</b>	<b>5, 6 or 7 cm in diameter reel</b>

**ANDHER®**  
TECNOLOGIA ALIMENTACION

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 8. COTTON C-10

For continuous thread tying machines.

Smoother and more economical.

### DATA

**Description:**

Cotton C-10 yarn

**Color:**

White, White + Color, Color

**Nº of threads:**

4/t

**Material:**

70% Cotton and 30% Polyester

**Format:**

5 cm in diameter reel

**ANDHER®**  
TECNOLOGIA ALIMENTACION

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 9. SPECIAL POLYESTER CORD

Special waxed string for Italian continuous wire binding machines.

Tubeless shrink sleeves reel with inner fraying.

### DATA

<b>Description:</b>	<b>Special Polyester cord</b>
<b>Color:</b>	<b>White, White + Color, Color</b>
<b>Nº of threads:</b>	<b>6/t</b>
<b>Material:</b>	<b>100% Polyester wax</b>
<b>Reel format:</b>	<b>7,5 cm x 6,5 cm 5,5 cm x 8,5 cm</b>

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 10. COTTON BALLS Nº 9

Cord with resistance and elasticity ideal for tying by hand.

### DATA

**Description:****Cotton wire Nº 9****Color:****White, White + Color, Color****Nº of threads:****from 4/t to 6/t****Material:****Cotton****Balls format:****30 gr****50 gr****60 gr**

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 11. COTTON N-9

To tie by hand.

Great resistance and softness.

### DATA

**Description:**

Cotton yarn N-9

**Color:**

White, White + Color, Color

**Nº of threads:**

from 4/t to 10/t

**Material:**

Cotton

**Format:**

500 gr, 1 kg reels or cut to length

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 12. 200 grs COTTON REELS

The most economical format for hand tying twine.

**DATA**

<b>Description:</b>	<b>200 gr Cotton reels</b>
<b>Color:</b>	<b>White, White + Color, Color</b>
<b>Nº of threads:</b>	<b>4/t</b>
<b>Material:</b>	<b>Cotton</b>
<b>Format:</b>	<b>200 gr reels</b>
<b>Reels presentation:</b>	<b>1 kg pack</b>

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 13. C15 CORD

Special cord for tying meat. It can be used in cooking.

**DATA**

<b>Description:</b>	<b>C15 cord</b>
<b>Color:</b>	<b>Ecru</b>
<b>Nº of threads:</b>	<b>20/t</b>
<b>Material:</b>	<b>100% Polyester</b>
<b>Formato:</b>	<b>200 gr, 500 gr or 1 kg reel</b>

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 14. SEWING GUT CORD AND WIRE

### DATA

Description:	Sewing gut Cotton cord
Color:	White
Material:	Cotton
Format:	4 kg cone

### DATA

Description:	Sewing gut Polyester wire
Color:	White
Material:	Polyester
Format:	500 gr cone

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 15. RAFFIA CORD

Cord for tying beef and pork.

### DATA

**Description:**

Raffia cord

**Color:**

Natural or Colors

**Nº of therads:**

from 1/t to 3/t

**Format:**

in reels or cut to lenght with a knot

**Material White Raffia:**

Made of 100% Neutral Polypropylene. No additions.

All of them polymers of "alimentary aptitude".

**Material Color Raffia:**

Made of 99% Neutral Polypropylene + 1% of Colorant.

No additions.

All of them polymers of "alimentary aptitude".

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 16. JUTE CORD

100% natural fiber.

**DATA**

**Description:**

Jute cord

**Color:**

Natural (Brown bag)

**Nº of threads:**

de 3/t

**Material:**

100% Natural Jute

**Format:**

100 gr, 200 gr, 500 gr and 1 kg reels or cut to lenght

\* We also make jute strings for hams

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 17. POLYESTER ROPE

Rope for hanging fresh hams and beef.

**DATA**

<b>Description:</b>	Polyester rope
<b>Color:</b>	White and Colors
<b>Diameter:</b>	4 mm for hams / 5,5 mm for beef
<b>Type:</b>	Braided
<b>Material:</b>	Polyester continuous filament 1200 Nm
<b>Format:</b>	in reel cut to lenght cut to lenght with a knot

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 18. POLYESTER CORD N-15/3

Cord for sewing bags.

**DATA**

**Description:**

Polyester cord Nº15/3

**Color:**

White or Color

**Nº of threads**

3/t

**Material:**

100% Polyester

**Format:**

200 gr and 2 kg cones

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 19. COTTON ROPE

Rope for hanging hams. Any color combination available.

**DATA**

<b>Description:</b>	Cotton rope
<b>Color:</b>	All color combinations
<b>Nº of threads:</b>	2/t, 3/t or 4/t
<b>Material:</b>	Cotton
<b>Format:</b>	cut to lenght cut to lenght with a knot

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 20. COTTON SHEATH

Ham sheath.

**DATA**

**Description:**

**Color:**

**Material:**

**Format:**

White Cotton sheath 20 cm

White and Colors

Cotton

10 kg reel

Cutted and sewed

With printed or silk-screened anagram

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

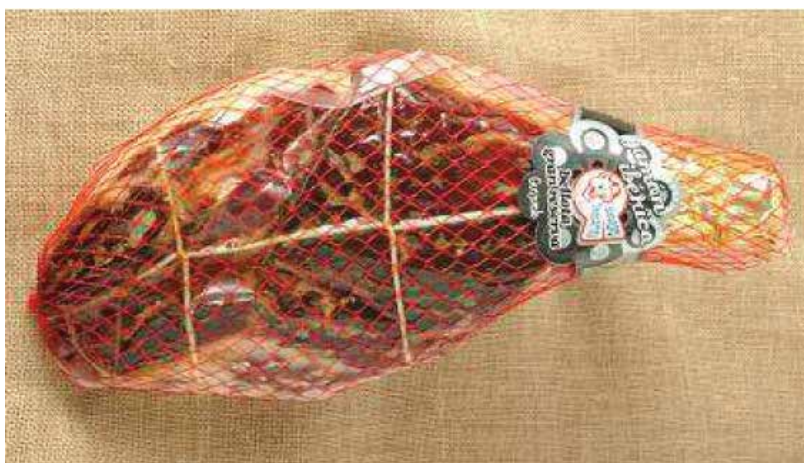

## 21. SPECIAL POLYESTER CORD

Cord to tie boneless hams.

### DATA

<b>Description:</b>	Special Polyester cord to tie boneless hams
<b>Color:</b>	White and Colors
<b>Material:</b>	100% Polyester
<b>Format:</b>	2 kg reels

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 22. SHEATH FOR COLD MEAT

For hygiene: handling, transport, environmental pollution.  
To maintain moisture and thus weight.  
To improve the presentation.  
To give better service to your customers.  
To distinguish yourself from your competitors.

Material: Polyester

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

## 23. SYNTHETIC NET

Plastic nets made from injected or extruded plastic.  
Different calibres and qualities.  
NEW! Synthetic net cut at 80 cm and welded at one end.

**DATA****Description:****Color:****Synthetic net****White****Red****Yellow****Black****Green****Orange****Blue**

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 24. ELASTIC NET

### DATA

Description:

Color:

Material:

Type:

Sizes:

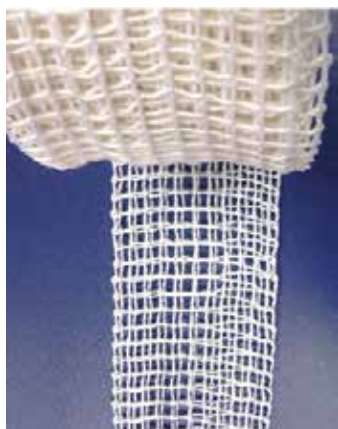

Elastic net

White and White - Red

Polyester and Natural rubber

S: standar format

R: more resistant and elastic format  
from 80 mm to 300 mm

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 25. FITTING TUBE

Special net tubes to place the elastic net on meat.  
It saves a lot of time!

Available tube diameters

86 mm  
96 mm  
110 mm  
125 mm  
140 mm

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

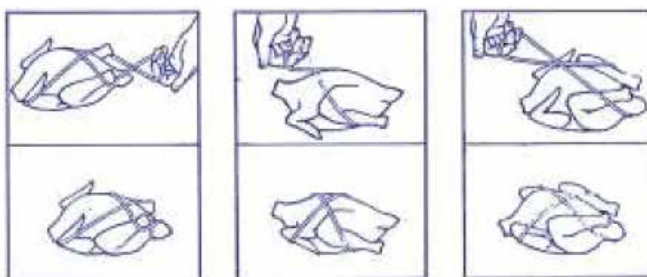

## 26. ELASTIC RUBBER BANDS

Elastic rubber bands made of Food Latex coated with Cotton.

Throughout Europe, for any foodstuff that needs rubber and elastic nets, food rubber must be used. This rubber is specially made to be in contact with food so that it does not produce toxic effects and so that the product can be cooked without removing the band or mesh. In this way, it can keep the product compact until it is completely cooked.

With just one gesture, 40 quick-to-use rings

Available in various colors to make distinctions between different types of food

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

27. APRONS

Model: Cross POLYESTER  
Sizess: 90 x 75 cm  
110 x 75 cm  
120 x 75 cm  
Color: White

THE MORE THICK AND RESISTANT MODEL

Model: Cross POLYURETHANE  
Sizes: 110 x 75 cm  
Color: White

Blue  
Red  
Green

THE THINNER MODEL

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

OFFICIAL  
DISTRIBUTORS

## 28. VIKAN: cleaning products

Vikan is the leading manufacturer of hygienic cleaning utensils. The products are easy to use and to sanitize. All of them are approved for use with food and have been subjected to quality testing to ensure hygiene standards.

Exclusive Vikan concept of color coding !!

**REQUEST OUR SPECIFIC VIKAN CATALOGUE**

Nº RISPAC: 39-05011/CAT    Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

EXCLUSIVE  
DEALERS  
IN SPAIN

## 29. DETECTAMET: detectable products

We provide stationery tools and equipment that are widely used in food production areas for preventing contamination by foreign matter.

Mixing and handling equipment

Brushes and brooms

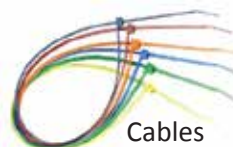

Stationery

Hygiene materials

First Aid kits

Cables

**REQUEST OUR SPECIFIC DETECTAMET CATALOGUE**

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## 30. EPIS: desechables

Huge range of desechables:

- Blue nitrile gloves
- Flat hairnets
- Accordion hairnets
- Polyethylene sleeves
- Mask
- Beard cover
- Velcro dressing gown
- Galga 160 apron
- Simple and reinforced shoe cover

**REQUEST OUR SPECIFIC EPIS CATALOGUE**

Nº RISPAC: 39-05011/CAT

Nº RGS: 39-03717/GE

Product complying with EU Regulation 10/2011, EC Regulation 1935/2004 and its materials and its food contact objects are included in the lists of substances authorized by the EU for use in manufacturing.

## GUARANTEES ACCORDING TO EUROPEAN QUALITY STANDARDS

- Our products comply with the regulations EU 10/2011 and CE nº 1935/2004
  - Migration rates within the limits established by European directives
- Our control system guarantees the non-use of dangerous components according to EC directives
- Authorized to be in contact with food in accordance with REGULATION 2023/2006
  - Products without optical brighteners or bisphenols
  - Guaranteed traceability
  - Free of metal objects
- Cords and ropes comply with established microbiological criteria by food standards

Existing health authorizations:

RISPAC 39-05011 CAT
